

# AM SERIES CUSHIONED HITCH BAR

For use in 2" x 2" Tube Socket Under-Frame Receiver Hitches

- Acts as a shock absorber, effective in reducing bounce and rhythmic vibrations.
- Protects the towing vehicle's driveline, hitch assembly and trailer contents.
- Available standard in 2", 4", 6" and 8" Drops. Reversible for use as a riser.
- Class 4, V-5 SAFE! Meets SAE J-684 standard.

## RATINGS

- 10,000 pounds GTVW (Gross Towed Vehicle Weight)
- 2,000 pounds MTW (Maximum Tongue Weight)

WARNING - Never exceed the receiver hitch rating or the vehicle manufacturer's recommended towing limitations. Remember, a hitch system is no stronger than the weakest component. NEVER - modify the hitch bar by drilling, cutting, welding or grinding.

AM series hitch bars are designed for 1" diameter ball shanks. Smaller diameter shanks must be installed with an appropriate reducer bushing.
